

Do More with an All-In-One
eLearning Authoring System

What is dominKnow | ONE?

dominKnow | ONE is a web-based platform for authoring all kinds of learning experiences – from eLearning courses to knowledge bases to infographics and more. Everything is stored centrally so teams can work together, reuse content across projects and easily review content.

 **1** Build accessible content that meets all learners' needs.

 **2** Translate and localize content, no matter where your learners are.

Authoring

Quickly create interactive and engaging content using beautiful templates. Customize them any way you like.

Collaboration & Review

Collaborate and review with your team to create better content faster.

Responsive & Mobile

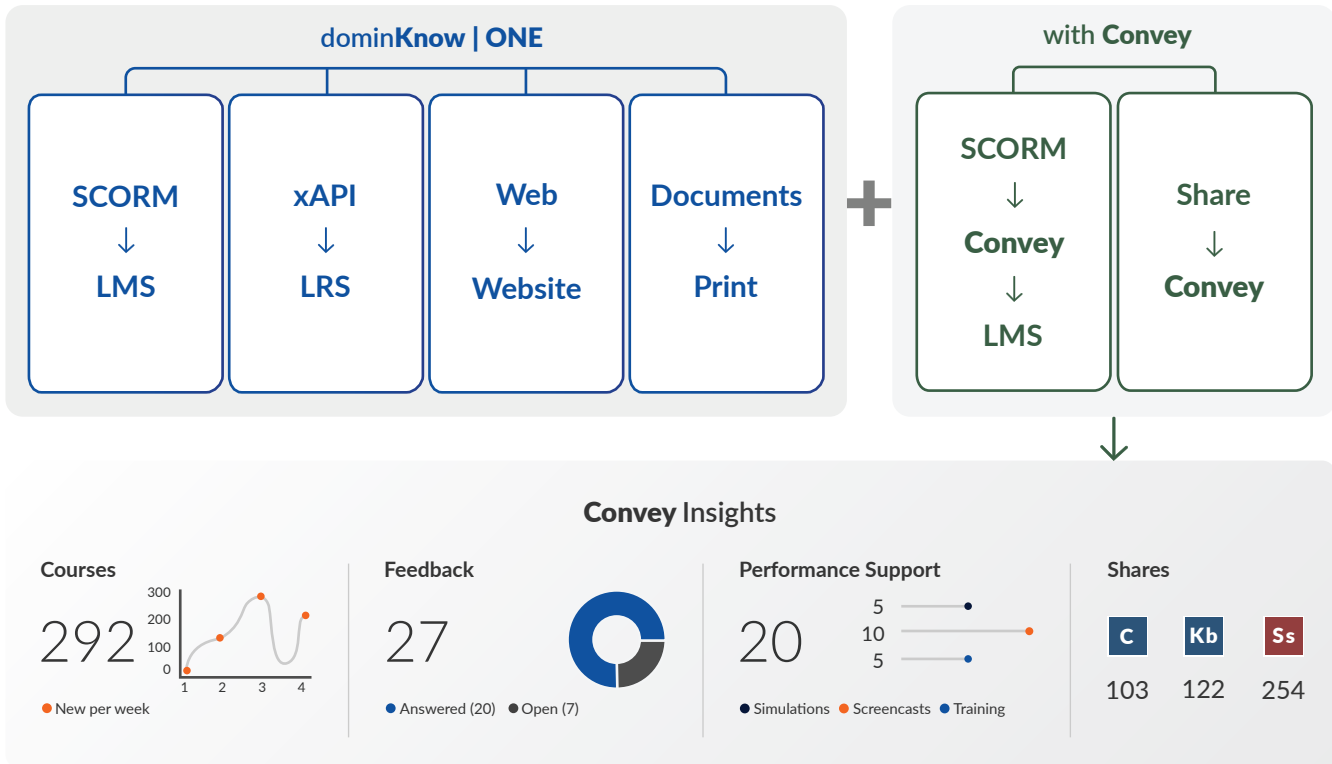

Create responsive and HTML5 mobile-friendly content without limitations.

LCMS

Easily scale and manage your content centrally with the power of an LCMS.

Easily Publish and Manage Your Content

Publishing

Publish your eLearning as SCORM, xAPI, AICC, Web, Desktop, or Print and use PENS for one-click uploading into your LMS or LRS.

Convey Content Hosting

Optional real-time publishing, reporting, management and hosting of your SCORM, xAPI or web projects. Get deeper insight into the performance of your learning content.

No need to start from scratch!

With thousands of ready-for-use assets and templates, dominKnow | ONE has everything you need to create beautiful and engaging content.

dominKnow | ONE even has a library of ready-made, off-the-shelf content to get your projects started quickly. It's the best of both worlds – content from experts, ready to go AND fully customizable so you can tailor it to your organization's needs. Topics include soft skills, leadership, management and more.

Trusted globally.

Multi-award winning. Best-in-class, year after year.

SOA saves more than 50% of the time we used to spend in the review process.

Leslie Fausher
eLearning Manager
Society of Actuaries

50% reduction in translation costs with the dominKnow platform.
